1. Togliere il lamierino parapolvere dai montanti del cassone.  
1. Remove protection strips from the vertical frame parts.

2. Togliere il lamierino parapolvere dal traverso del cassone.  
2. Remove the protective strip from the horizontal frame part.

3. I perni devono essere posizionati in centro all'anta e a 10 mm dal bordo del cassone./ 4. Forare nei punti prestabiliti.  
 3. The floor pivots have to be placed in the middle of the door and at 30mm from the rear edge/ 4. Drill the floor in predetermined points.

5. Fissare i perni a pavimento.  
 5. Fix the pivots to the floor.

6

6. Inserire gli spazzolini parapolvere nelle apposite sedi.  
6. Insert dust strips into the frame as shown.

7

7. Togliere il tappo copri carrello da entrambi i lati dell'anta.  
7. Remove the cover of the carriages from both sides of door.

8. Avvitare i blocchi quadri ai carrelli.  
8. Screw the square blocks to the carriages.

9. Inclinare l'anta, appoggiare il tondino a terra ed appoggiarsi sopra l'anta per permettere lo scorrimento. Introdurre il quadro di blocco posteriore nella staffa fino al punto da consentire l'avvitamento del bullone. / 9. Rest the door on the bar on the floor allowing it to tilt. Insert the rear of the block into the fitting to allow the bolt to be screwed.

10. Infilare tra pannello porta e traversa la piastrina di lamiera. / 11. Avvitare il quadro posteriore fino a posizionare l'anta alla giusta altezza.  
 10. Insert the metal plate between the door and the crossbeam. / 11. Screw the rear block until the door achieves the correct height.

12. Chiudere il grano di sicurezza presente nel blocco quadro posteriore. / 13. Sfilare la piastrina di lamiera.  
 12. Close the security screw inside the rear square block. / 13. Pull the metal plate.

14. Svitare la vite già inserita nell'anta, spingere l'anta fino al punto in cui il quadro posteriore si blocca ed avvitare la vite. **ATTENZIONE:** Inserire solo la vite fornita, NON utilizzare gli altri due fori presenti sul blocco quadro.

14. Remove the screw already inserted in the door. Push the door until it locks into place and reinsert the screw. **CAUTION:** Only use the screw provided. Ensure only the correct hole is in use leaving other two holes clear.

15. Infilare le ante sui perni a pavimento e farle scorrere nel cassone.  
 15. Place the doors on the floor pivots and allow to slide into the counterframe.

16. Infilare il blocco quadro anteriore.  
 16. Insert the front square block.

17. Posizionare la piastrina di lamiera come riscontro ed avvitare il blocco quadro anteriore fino a posizionare l'anta alla giusta altezza.  
 17. Place the metal plate provided and screw the front square block until the door is at the desired height.

18. Dopo aver terminato le regolazioni e verificato il perfetto scorrimento dell'anta, bloccare le staffe anteriori nella posizione indicata.  
 18. After having finished the adjustments and having checked the perfect door sliding, block the front brackets in the marked position.

19

19. Posizionare la mostrina copri carrello sulla parte anteriore dell'anta.  
 19. Place the cover on the front side of the door.

20

20. Posizionare la mostrina copri carrello su entrambi i lati delle ante.  
 20. Place the cover on both sides of the doors.

Posizionare il fermo anta posteriore in base alla distanza [d]. Seguire i passaggi da 21 a 24.  
Position the rear stop according to the final position (d). Follow the passage from 21 to 24.

21. Tramite un utensile, tirare il fermo anta (già inserito nel binario) fino ad agganciarlo sull'anta.  
 21. Using a tool, draw the rear stop already placed in the track until it hooks onto the door.

22. Impostare la distanza voluta [d] e successivamente fissare il fermo anta con le viti in dotazione.  
 22. Set the desired distance [d] and then attach the door stop with the supplied screws.

23. Svitare e muovere il fermo anta anteriore per regolare la battuta dell'anta.  
 23. Loosen the screw and move the front door stop into desired position.

24. Inserire guarnizioni nelle apposite sedi sul traverso.  
 24. Insert the seals into the correct positions on the horizontal element.
